

Quickload™

Quickload Selected for IBM zSeries Rebate Program

Receive a REBATE for Quickload

Quickload Award

Quickload has been designated as an eligible software solution for the IBM eServer zSeries™ ServerProven® for IBM eServer Rebate Offering.

As part of that program, you can license Quickload within a 9 month period of your zSeries purchase/upgrade and receive a **REBATE** toward the invoice price of the Quickload software.

IBM provides this rebate to ISV products that have demonstrated zSeries proficiency at customer sites and who have achieved the IBM status of ServerProven.

We are proud to be among this elite selection of software solutions.

Eligible Dates

Hardware upgrades and Quickload licenses must have invoice dates on or after May 10, 2005.

In addition, Quickload invoice dates must be dated no more than 90 days prior to or 180 days after the hardware invoice date.

Product Components

- **OS Installer**
- **Discovery Browser**
- **Migration Utility**
- **Maintenance Utility**

IBM Server **Proven™**

The IBM Offer

You can receive a rebate of up to \$150,000 USD if you purchase a qualifying new ServerProven® for IBM eServer solution consisting of a:

- New IBM eServer zSeries 990, 900, 890 or 800 server, or
- Model upgrade to an existing zSeries 900, 800, or S/390 Parallel Enterprise server that includes a minimum of one additional new engine, or
- Processor feature upgrade on an existing zSeries 990, 900, 890, or 800 server, and/or
- New IFL feature on a new or existing zSeries 990, 900, 890, or 800 server.

The Rebate Amount

The rebate will be equal to the lesser of the cost of Quickload or the eligible zSeries hardware rebate amount.

For full details, visit the IBM web site.

If you have recently upgraded, or are planning a hardware upgrade, call now to take advantage of IBM's REBATE OFFER.
